## **II. Post Graduate Diploma in Urban Environmental Management and Law (PGDUEML)**

CEL entered into a Memorandum of Understanding with National Law University, Delhi to jointly run the programme which is specifically designed for the benefit of students as well as urban administrators, urban managers and working professionals involved with improving living conditions and quality of life in urban areas. The interdisciplinary programme is aimed towards strengthening the professional capacity and developing a human resource pool of efficient urban managers and administrators by providing an in-depth knowledge and understanding of the existing urban laws, by-laws and policies.

### **The main objectives of the programme are:**

- Provide comprehensive knowledge of the existing urban legal and policy frameworks to the learners.
- Enable learners to propose such changes as are necessary in these laws to find convergence with urban environmental management practices.
- Facilitate a platform for managing the current urban issues in a broader perspective of environmental governance and sustainable development.
- Train the urban professionals to optimally utilize financial and technical resources or materials ensuring good governance locally, regionally and nationally.

### **III. Post Graduate Diploma in Tourism and Environmental Law (PGDTEL)**

PGDTEL jointly offered by NLUD and CEL, WWF – India, aims to assist professionals and fresh graduates to develop a better understanding of the tourism industry, especially in relation to those working in areas of ecotourism. The programme includes perspectives on all the new developments and new insights into the relationship between tourism and the environment dealt with at both global and regional level.

The programme will highlight crucial socio-environmental problems related to the tourism industry along with the legal and policy issues, as well as present the steps to manage and overcome the same. This exciting course is unique as it covers the scope and nature of ecotourism in today's market and looks at the sources and types of opportunities available within this fast growing industry.

#### **The main highlights of the programme are:**

- Programme would provide broader understanding of both global and local tourism laws and policies.
- Background knowledge as well as practical tools for addressing the loopholes of tourism laws/policies at both formulation and implementation level will be provided.
- Tourism management would be discussed in the broader perspective of environmental governance, sustainable tourism and ecotourism standpoint. Crucial socio-environmental problems related to the tourism industry as well as steps to manage and overcome the same will be presented.
- It would enable the participants to propose changes as are necessary in laws/policies for development of a responsible ecotourism model.
- It would train tourism professionals to optimally utilize financial and technical resources/materials to develop a sustainable, step by step plan of their own ecotourism product.
