The logo of National Law University Delhi is composed of 3 elements: n (N), L (L) and U (U) which are interlinked by the second element of L. In its totality, it represents the harmonious confluence of different elements of disciplines and level—a rule that Law and its executive, the judicial system also performs. Individually, the 'N' and 'U' are downward and upward facing, symbolising polar and complementary outlooks, through which Law threads its way. The extension of 'L' or Law to beneath the layer, attempts to encapsulate the concerns of equality and social justice. The emphasis is on the 'Rule of Law' (represented by the second 'L') in promoting social justice, particularly targeting the vulnerable population, which is lowest on the social ladder. Its columnar arrangement suggests an upholding of justice, equality, fraternity, and human rights in all their facets to reach at a secular democracy.
Our endeavour has been to transform legal education into justice education and to be an instrument of social, political and economic change. The primary mission of the University is to create lawyers who will be professionally competent, technically sound and socially relevant. They shall enter the front rows of the Bar and the Bench to address imperatives of the new millennium, uphold the values of Indian Constitution and help strengthen the rule of law in the country. This necessarily means that students at our prestigious Law University shall be the bridge connecting the law with society, economics, and politics.

Vice-Chancellor Prof. (Dr.) Ranbir Singh
The lawyers trained here are well equipped with the desirable advocacy skills not only at the trial but at the appellate levels also. They will contribute as agents of change to the country’s mandate to achieve its future developmental goals. This institution is nurturing and shaping aspirations of the youth of the country in realizing their dreams to be jurists skilled in judicial administration. Our students are ready to work relentlessly to make this world a better place to live in, in all respects. Dynamic in vision and robust in commitment, the University in a very short span of time has shown terrific promise to become a world-class institution. In the NIRF Rankings 2018 and 2019, NLU Delhi was ranked as second best Law school in the country, with a score of 74.58 and 76.23 out of 100. NLUD has been accredited with 'A' Grade by NAAC, with a benchmark CGPA of 3.59 on a 4 point scale. We have also been granted CAT-1 status by MHRD for graded autonomy and rank at no. 2 in Delhi and no. 8 in the country as per the NAAC score.

These excellent ratings by esteemed Government agencies not only place NLU Delhi amongst few of the top institutions in the country imparting quality legal education but are a reflection at the excellent academic environment at the University for teaching a research. To inculcate the professional skills in budding lawyers, the pedagogy at NLU Delhi comprises of lectures, seminars, group and individual tutorials and simulated exercises like moot courts; client interviewing and mediation/conciliation etc. To facilitate intensive and interactive learning, thoroughly revised and updated study material is prepared in every course by the faculty. In the past few years, the University paced spectacularly and attracted some world-class faculty from some of the best law schools in the world. Thus, the University at present can boast of a unique mix of faculty, which has on the one hand, some very eminent and senior faculty members whose experience is a great asset for the university and, on the other hand, young and talented faculty that brings contemporary and latest approaches to the research and teaching to this University.

We are suitably poised to be known as an institution devoted to significant research. The University has various Research Centres, inter alia, Centre for Communication Governance; Centre on the Death Penalty; Centre for Corporate Governance; Centre for Transparency and Accountability in Governance; Centre for Innovation, Intellectual Property and Competition; Centre for Criminology and Victimology; Centre for Banking and Financial Laws, etc. These centres are committed towards focused research in the contemporary issues and provide consultancy at the behest of Courts and Government bodies in various policy formulations. The University works on sensitive issues like 'Criminal Justice Administration', 'Gender-Sensitization', 'Women empowerment', 'Human Rights', 'Environmental issues'; and 'Corporate Social Responsibility' (CSR) in close association with various Government and Private Agencies. We have a 'Zero Tolerance Zone' for any kind of discrimination on the basis of sex, religion, caste and/or any other parameter in violation of the spirit of Indian Constitution. The lawyers and researchers of tomorrow trained here are expected to be committed to make the manifesto of 'justice to all' and 'equal access to justice' a living reality and help in the speedy dispensation of justice. Visualising the track fared so far; the NLU Delhi is all set to become a University with a difference committed to offer a socially relevant education.

message

Vice- Chancellor's
The vision and mission of this University is to enable the young minds to contribute to the National development, and work towards the cause of humanity. We believe "education is not preparation for life, education is life itself".

Registrar Prof. (Dr.) G. S. Bajpai
It is a momentous occasion to pen these lines. The year 2018 marked the tenth year of the establishment of National Law University Delhi (NLU). Started with modest facilities, National Law University Delhi reached its zenith in the ten years since its inception, achieving incredible ranking by NAAC (A+ Scoring 3.59). The journey to excellence did not stop here as the University earned the unique distinction of achieving the 2nd Rank in law in India Ranking by the Ministry of Human Resource Development (MHRD) led National Institute Ranking Framework (NIRF), consecutively for two years in 2018 and 2019. The terrific response to NLU Delhi as an academic institution is visible from receiving 21509 number of applicants appearing for the exam in 2019, for admission to its various programmes.

The performance of the students at National Law University Delhi has always been stellar. Notably, in the last two years 13 graduate and post-graduate students cleared the Judicial Service Exams 2017 and 2018, with one graduate student topping the exam at rank one. Other exemplary performances by alumni include remarkably clearing the Union Public Service Commission (UPSC) CSE 2017 and 2018 with successful ranks by eight students. These numbers are particularly laudable as the batch size of students is just 80 in a year, for both B.A.LLB. (Hons.) and LL.M. The placement and employment results for the students of NLU Delhi have shown tremendous results and the students are getting coveted positions in the prestigious law firms, PSUs, Banks and any other organisations. It has almost become a trend to find the students doing convincingly when it comes to admissions and winning scholarships for higher studies in the most reputed Universities.

The confidence of the stakeholders in the University is primarily due to its ability to sustain quality education which is indicated by the presence of a very able faculty body and a terrific faculty-to-students' ratio (1:10), which is rare to find. The University offers efficient pedagogy and state-of-the-art technology and infrastructure to support students and faculty, very efficiently. One of the factors leading to the resounding presence of the University is its ability to transform itself into a research institution carrying out remarkable international projects, policy studies, and training programmes for various stakeholders in the Government. These research centres of the University cater to varied professional and academic needs of the society, making the corpus of research funds reaching over 15 Crores INR. The University incorporates over 50 researchers, in addition to 50 full-time Faculty and over 35 Research Scholars on campus; the combination providing significant opportunities for students to indulge in research pursuits to build their competence.

The University is fortunate to have access to Ministries, Courts, Bar and Bench, and thereby these resources being mobilised onto the classrooms and for research. NLU Delhi is perhaps the only institution highly altruistic in funding students' activities of all kinds every time, for all the students selected for International mooting and other competitions. NLU Delhi also has several collaborations with prominent law schools abroad and provides opportunities every semester for student exchange programmes, amongst NLU and Foreign Universities. The library also encompasses an expansive collection of books and e-resources, including remote access feature, with over 50,000 titles that facilitate students in their studies, research and various mooting competitions.

Code of Conduct and Academic Responsibility

The University takes a pro-active approach on all matters related to the professional and appropriate code of conduct on part of the entire University community, i.e. students, faculty, and non-teaching staff. All members of the University are expected to observe decorum in all their relations with each other and the University also recognises indispensability of statutory provisions in this regard. Furthermore, commitment to an environment of honesty, fairness, and mutual respect is withheld by the University, which takes serious cognizance of any acts of academic/professional misconduct. These broadly include cheating in academic exercises, plagiarism, misrepresentation, and interference of any kind in or during accessing of University services by the fellow students, among others.

NLU Delhi’s curriculum is inspired by the ‘UGC Curriculum Development Committee Report’, to meet the challenging academic progressions posed by globalization; e-commerce; and transnational, legal, social, and political issues. The study curriculum addresses the myriad concerns of an Indian society intermingled with modern education involving legal literacy, poverty, human development, etc. The syllabi promote an interdisciplinary approach, including aspects of clinical legal education as integral component of instruction and dissemination of knowledge.
Teaching Methodology

The University imparts academic instructions aided by AV methods along with simulated activities such as moot courts, client interviewing, mediationconciliation and other interactive and participatory learning activities to develop professional legal skills. The faculty advisors act both as mentors and counselors for students, guiding and facilitating in them pro-active initiative taking, curiosity to learn, and an urge to help others; while engaging in their curricular as well as co-curricular activities.

Study materials accompany faculty teaching for each course to facilitate an engaging interactive learning. Pedagogy includes a mix of lectures, seminars, and group and individual tutorials. Furthermore, to develop and enhance various skills of reading, research, analysis, and writing projects and assignments are given regularly to students. Collaborative teaching is undertaken in some courses, to maximise multiple and manifold faculty expertise and experience, thus promoting inter-disciplinary and richly varied learning.

Learning at NLU Delhi’s classrooms is an amalgamated experience targeted to be engaging, enjoyable, thought-provoking, and challenging. There is a skilled pedagogy system developed premised on modern, progressive, and global teaching techniques, designed particularly to meet the varied needs of different types of students. We at NLUD believe in the goal of making learning fun, so that hard work and having fun comes hand in hand, to make students learn faster and more effectively.

Interactive Faculty

Our teaching pedagogy and faculty know the importance of guidance to students; hence create such bridges and relations with students to support them in and out of class. Students can approach the faculty advisors to discuss anything troubling them, ranging from their economic hardships, emotional turmoil, learning or language difficulties, personal or academic problems, career choices, and even counseling for choosing career goals. In the classroom, there is a constant invigorating and engaging dialogue with students, on issues of contemporary concern and on curriculum constantly matching the changing times.

The University has an added advantage and opportunity of visitations by invited sitting and retired Judges of Supreme Court and High Court, by leading lawyers, academicians, and retired Judicial Officers for the purpose of lectures, seminars, and discussions involving students and faculty.

“I am happy that instead of being merely a Law School, it has undertaken training of judicial officers. A combination of Law School and Judicial Academy opens up lot of exciting possibilities.”

HMJ RV Raveendran, Judge, Supreme Court
“This law school is destined for great things! From the leadership to the infrastructure to the faculty and mostly the students, let this law school pioneer a model of leadership and scholarship for India and the world based on ancient traditions and modern best practices.”

It covers 88 interviews of death row prisoners and their families in the states of Delhi, Kerala, Karnataka, Madhya Pradesh and Chhattisgarh. The objectives are to (a) identify under trial prisoners with a history of mental illness, with the assistance of prison authorities; and to (b) consult with mental health professionals to ensure that the illness has been properly diagnosed and is reflected in the records.

• Trial Court Sentencing Project (2016-2018)
Project 39A was granted this project, which with its doctrinal roots attempts to understand the compliance to the 'harshest of rare' doctrine by trial courts. It also critically engages with the evolution of the doctrine from its original meaning, assigned to it by the Supreme Court in Bachan Singh. Towards fulfilling these objectives, the project looks at three death penalty heavy states of: Maharashtra, Madhya Pradesh and Delhi. It will analyse 214 trial court judgments between 2000-2015, wherein death sentence was imposed.

• Legal Aid Project (2018-2021)
Project 39A was granted this project, with the aim to evaluate existing systems, develop a 'Best Practices Model' and incorporate this as part of a code of professional ethics for lawyers. This comes with a real danger of the innocent, being convicted or sentenced to death. The project will rely on interviews with prisoners, former police officers, prison officials, and people who have been acquitted on account of innocence.

• **Regulation of Digital Markets in the Context of Big Data, AI, and IoT (January 2018 onwards)**
  While framing policies with regard to regulation of digital markets, even some of the basic concepts like—dominance, abuse of dominance, and collusion between undertakings—may have to be revisited. This project will primarily look at competition issues in two areas: (1) App Store market for mobile devices and (2) Algorithmic bias in online services.
