About Project 39A:

Project 39A (hereinafter 'P39A') draws inspiration from Article 39-A in the Indian Constitution on equal justice and signals the broadening of our work on the criminal justice system in India. Role of Associate (Mitigation):

The law as settled by the Supreme Court of India in death penalty cases states that guilt determination and sentencing are two distinct phases in a criminal proceeding. After a person is pronounced guilty, a separate and detailed hearing on sentence is required to be conducted in which the defence can lead evidence and present additional materials which are different from what was considered for the determination of guilt. The Associate (Mitigation) will be part of the defense team providing legal representation to death row prisoners. They work closely with lawyers to collect information towards developing a life history of the accused by meaningfully engaging with the accused, their family and acquaintances as well as finding documents relating to the childhood, social context, physical and mental health etc.

This aids courts in developing a better understanding of the circumstances related to the "criminal" and in passing an appropriate sentence in law.
